

Fire Truck Mounted Fire Pump **HIGH VELOCITY PUMP**

**Output: 5,500 GPM from draft and
10,000+ GPM from a pressurized source**

Optimized flow through layout

Certified NFPA 1901

Certification by UL (Underwriter Laboratory)

12" flanged suction inlet

8" discharge outlet

High lift capabilities

Wide performance ranges

Cast iron, bronze, or 316 stainless steel volute available

Mid-ship or rear mount applications available

Patent Pending
